**B-MASTER** supplies quick and reliable air for a sport in which only precision and speed counts.

Extremely robust and made for continuous operation for years - the B-MASTER guarantees that you will never run out of air.

One-hand operation, safety valves and nonreturn valves make filling super safe and very easy!

The system can be expanded by connecting several devices and is designed for inlet pressures up to 420 bar.

## THE FILLING CENTER, WHICH SETS STANDARDS

robust filling valve

safe quick-coupling

easy one-hand operation

### SIMPLY TOUGH AND AS QUICK AS A FLASH

The **B-MASTER** was developed and optimized according to the **tough requirements** of the **paintball-sport** for **continuous operation**.

The installed **filling valve** lasts for **more than hundreds of thousands of fillings**. **Stainless steel** make it perfect for **outdoor operations**.

The **one-hand operation** in connection with the **automatic vent** guarantees most **simple handling** and **absolute safe operation**. Thanks to **extremely short filling times** the team players are ready for action again in no time.

### SAFETY FIRST

The **newly developed BAUER-quick-couplings** fit for all standard HP-nipples and were designed for pressures **up to 350 bar/5200 psig**. The **nonreturn valve prevents uncontrolled swinging of the filling hose**, if one **releases** by mistake **without a connected marker**.

### COMPLETE PRODUCT RANGE

The **three models MINI, MIDI and MAXI** offer a suitable solution for each requirement. All models offer 200 bar/3000psig and 300 bar/4500 psig filling pressure. The **max. inlet pressure of 420 bar/6200 psig** of the top model **MAXI** ensures extremely high air requirements at short notice in connection with a **storage bank**. **Several pieces** of one type can be **combined to a filling line**.

## TECHNICAL DATA

Model	Number of filling devices	Intake pressure		Pressure reducer	Safety valve	Outlet pressure	
		bar	psig			bar	psig
B-MASTER MINI	1	200/300	3000/4500	○	●	200/300	3000/4500
B-MASTER MIDI	2	200/300	3000/4500	○	●	200/300	3000/4500
B-MASTER MAXI	1	up to 420	up to 6200	●	●	200/300*	3000/4500*

- standard scope of supply
- ◐ optional
- not available
- \* adjustable
